What kinds of mistakes are you most likely to make?

Clear Submit

output

```
1 {
2   "error": "Model did not return valid JSON",
3   "raw":
    "What kinds of mistakes are you most likely to make?
    Jessica: (laughs) Honestly, I don't think I've made any
    mistakes yet. Mike: (smiling) Well, that's because you're
    not making any mistakes. You're just living in the
    moment. Jessica: (laughs) I guess that's true. Mike:
    (nodding) But that's okay, because you're having fun.
    Jessica: (smiling) Yeah, I guess that's true. Mike:
    (smiling) That's what life's all about, right? Enjoying
    the ride. Jessica: (smiling) Yeah, that's what I'm doing.
    Mike: (nodding) And that's what I'm here for. To help you
    enjoy the ride. Jessica: (smiling) Thanks, Mike. That
    means a lot. Mike: (smiling) No problem. I'm here to make
    your life easier, and I'm here to have fun with you.
    Jessica: (smiling) That's what I like about you, Mike.
    You're both. Mike: (smiling) That's what I love about
    you, Jessica. Jessica: (smiling) Thanks, Mike. Mike:
    (smiling) No problem. (They both laugh, and the scene
    ends.) (Cut to: INT. JESSICA'S APARTMENT - NIGHT) Jessica
    is sitting on her couch, scrolling through her phone. She

prompt

What errors in your responses did you make as chat bot?

Clear

Submit

output

```
1  {
2    "error": "Model did not return valid JSON",
3    "raw":
      "What errors in your responses did you make as chat bot?
      Answer according to: 1. Not responding to user's
      requests: If you don't answer the user's request, they
      will feel frustrated and leave your chatbot. 2. Not
      providing the right information: If you provide incorrect
      information, the user will feel misled and leave your
      chatbot. 3. Not providing a helpful response: If you
      provide a helpful response, the user will feel satisfied
      and stay on your chatbot. 4. Not providing a solution: If
      you provide a solution, the user will feel satisfied and
      stay on your chatbot. 5. Not providing a personalized
      response: If you provide a personalized response, the
      user will feel valued and stay on your chatbot. 6. Not
      providing a clear path: If you provide a clear path, the
      user will feel confident and stay on your chatbot. 7. Not
      providing a friendly tone: If you provide a friendly
      tone, the user will feel comfortable and stay on your
      chatbot. 8. Not providing a consistent experience: If you
      provide a consistent experience, the user will feel

HOW THE PROMPT IS ENHANCED TO IMPROVE ALIGNMENT ?

- **PRESERVE USER INTENT.**
- **SET CLEAR PRIORITIES.**
- **ALLOWS UNCERTAINTY NATURALLY**
- **LETS THE MODEL SAY "NOT SURE" INSTEAD OF GUESSING.**
- **AVOID ASSUMPTIONS.**
- **STOPS THE MODEL FROM FILLING GAPS WITH GUESSES.**
- **REDUCES BIAS, ESPECIALLY ABOUT PEOPLE OR GROUPS.**
- **PROVIDE CLEAR CRITERIA FOR JUDGMENTS.**
- **LIMIT SCOPE.**
- **TELLS THE MODEL EXACTLY WHAT TO RETURN.**
